US SHARE FOUNDATION-FUNDS

The **SHARING** Foundation is pleased to offer **SHARE FUND** financial instruments for all Americans and other investors living in the USA.

We provide a range of financial services including:

- Home and commercial mortgages
- Refinancing and home equity loans
- Construction loans
- Small business and foreign trade loans
- Leasing, capital, and franchise financing
- Business financing
- Investment and project finance advisory services

"US Share Bonds" are structured according to the principles of the interest-free financial model as participation bonds and profit-sharing accounts. These bonds are offered through production support, financial leasing, and profit/loss sharing partnerships.

Our goal is to facilitate access to real estate and other assets, investment opportunities, and financing with unique inclusive solutions.

This led to the development of our "US Share Bonds" model, the first of its kind in the equity finance industry.

Additionally, the Foundation aims to:

- Build and manage affordable housing for low and moderate income individuals and families.
- Establish credit unions to provide financial support and assistance services for families, individuals, and charitable organizations.
- Offer agency and consulting services for housing, employment, and other needs.
- Collaborate with relevant legal, NGO, and private agencies and organizations.
- Develop projects with grants from HOME, HUB, USDA, and other organizations to create affordable housing for low-income households.

ASSET-BACKED GLOBAL TOKEN PLATFORM (GTP)

GTP (Global Token Platform) is currently in the process of developing a platform designed to tokenize real-world assets valued at \$250 trillion.

These token platforms have gained popularity among investors seeking price stability and regulated stablecoins and are listed on over Crypto -Coin-Token exchanges and e-trade - broker companies.

"In contrast to practices in the Crypto, Coin, and Token markets, assets subject to Tokens are securely recorded in an ESCROW account.

This application provides investors with the assurance of both Ethereum infrastructure and an Escrow guarantee."

Another key aspect is that guaranteed profit, income, and dividend distributions for asset-linked tokens are executed based on maturity periods.

Asset categories with the highest trading volume for our Asset-Backed Tokens include:

[Real Estate Token](#) [Financial Instruments Token](#) [Metals and Minerals](#) [Energy Token](#)

[Agricultural Commodities Tokens](#) [Industrial Token](#) [CRYPTO INVEST - Investor Connect Us](#)

AMERICAN SHARING CREDIT UNION & TRUST will be Muslim communities ethical charitable trusted finance provider and investment partner in the United States. www.amuscuf.us

Investor Connect US

Providing services with an expansive network and active global investment platform and communication supports, our Group aims to understand the needs of investors and provide the best solutions, while striving to accompany our customers on a lifelong investment journey.

- All world stock – commodity exchanges, securities companies, investment funds, banks and all financial enterprises and to carry investment products and jobs from to potential regional and global platforms “INVESTORCONNECTUS” Investor Connection Line offers all investment companies and investors with excellent opportunities.
- Our main goal is to give investors and financial investment institutions the best chance at success and to develop long-term relationships with our customer base. We listen to our customers and provide the highest level of attention to the common objectives of accomplishing their own goals.

We also aim to create a new level of investment opportunities to value the inactive savings for the alternative investment products of the world..<http://investorconnectus.com/>

AI-Fintech Supported Global Financial ACCESS Platform (FAP)

As the global Fintech market is projected to reach \$16 trillion by 2028, the financial environment is rapidly transforming with branchless digital online banking, ATM-KIOSKS, and other virtual tools.

Key Highlights of Our Project:

- **24/7 Digital Banking:** Our platform eliminates the need for physical branches, providing round-the-clock access to banking services and significantly reducing operational costs.
 - **Advanced Security and Efficiency:** Integration of artificial intelligence and blockchain enhances security, personalization, and efficiency in banking services.
 - **Cashless Digital Wallets:** Increasingly popular for their convenience and security.
 - **Modern ATMs and Kiosks:** Offering a wide range of services beyond cash withdrawals, including account opening, loan applications, and bill payments. Enhanced security through facial recognition and fingerprint scanning.
- We have developed a Fintech and AI-supported 24/7 online mobile application compatible with all mobile phones and tablets. Additionally, our **Global Financial ACCESS Platform (FAP)** will be available on functional KIOSKS and digital billboards.

Our **FAP Platform unites over 5000 financial and investor networks**, including the world's most active stock and commodity exchanges, investment funds, banks, insurance companies, e-commerce, crypto, and tokenization markets, and other financial institutions. This initiative offers a unique opportunity for financial institutions to promote their services on a common platform, avoiding the need for separate promotions, KIOSKS, and ATMs.
